SUPPERING CHILDREN.

As the gentle breath of Spring ceases to cool the brow and the hot air of Summer is felt in its stead THE EVENING WORLD naturally bestirs itself for the care of the tiny sufferers of the heated term. It will soon begin to organize its corps of physicians, who shall minister like angels of mercy to these neglected waifs of the tenement-

The experience of past Summers has shown thoroughly both the amount of good accomplished by this organized relief for these children of the poor and the ready liberality with which men, women and children respond to a call for assistance from them for this worthy cause. There should be no delay in this good

work, When the Summer comes and begins to mark its victims for one or another malady, peculiar to their tender years, the corps of Free Doctors should be already in readiness to leap into the breach and fight the foe.

The readers of THE EVENING WORLD WILL show the same spirit this year which they have shown in past ones. The conditions remain the same. This charity is one so beautiful, so thoroughly human and funda mental that it appeals to every generous heart. Subscriptions will soon be in order Let them be promptly given.

A BAPTISM OF DUST.

The merry breezes of a May Sunday found plenty of playthings ready to their touch in New York's streets and avenues, yesterday. They were the plies of dirt swept up several days ago from the thoroughfares which Mayor GRANT said were clean. These piles as they stood were eloquent contradictions of the Mayor's claim, and they became more so after the breezes began to frolic with them. Not even the brooms of New York women who might follow the lead of their Cincinnati sisters, who swept up several blocks in the Porkopolis the other day, would suffice to ward off such a baptism of dust as those breezes stirred up.

And it is interesting, indeed, to reflect that the taxpayers' money paid for this dusty baptism. Employees of the so-called Street-Cleaning Department laid up the piles of dirt, but no cartmen came to take the piles away. The wind scattered them, and they must again be swept up, probably to the same end as before. This is a beautiful system of aiding the wind in its play, but it is not cleaning the streets.

THE LUMBER BOYCOTT.

The lumber boycott which goes into effect to-day is very serious and may be the means of throwing into prolonged idleness thousands of workingmen. Many builders have combined with the lumber dealers, and say they they will stand by them. The trades unions assert that they will not give in. This makes it appear that a hard strug- Gov. Pattison, of Penrsylvania, is a man of tall gle is ahead. The lumber dealers claim that the demands of the unions are such as will prevent their conducting business profitably, and that they may as well close up first as last. The men claim that they ar underpaid and that they will get no redress unless aggressive action is taken and main-The result will be in any instance a large loss of money to the employers and much suffering and hardship to the em ployed. The situation is deplorable.

The Kalser is a man who feels strongly with letting his brain spend its energy is merely theorizing. Some of the practical results of his views are embarrassing to others; but WILHELM probably regards that as a trifle in the great benefit of a one-man government, in which he is the one man. The managers of the banquet at the Cologne festivities contracted with some French wine merchants for champagne which was to be supplied gratuitously. under an agreement that every other wine should be barred. The Kaiser heard of this, and forthwith ordered that only Rhine wine should be served at the banquet. The Frenchmen threaten suit for the broken contract. WILHELM Is German or nothing.

Another ocean greyhound is speeding hither on her maiden trip. It is the Furst Bismarck, of the Hamburg-American line. Everything in the way of modern improvements has been put into this sister-boat to the Normannia, and beside safety and the utmost luxury a high rate of speed is expected from the new boat. The more of this class of boats, the merrier.

Mr. GLADSTONE, while declining to give his views as to what should be done in the matter of American copyright law, declares the existing act as "highly unsatisfactory. He think it fails to meet the requiremen of labor interests, an author's dignity and America's good. Mr. GLADSTONE is an author and a great man. His views are entitled to consideration.

Love laughs at bolts. The fourteen-yearold daughter of Canal-Boatman McCLARE, who sails the gallant "Sadie," set fire to the boat. The Candid Little Boy. "Now, little noy, what is the meaning of he word hypocrisy?" asked a Texas Sun day-

" I oun't explain what it is, but I know just the same." "Give me an example of hypocrisy?"
"When a fellow says he loves his Sunday-school teacher—tant's hypocrisy."

WE shall need a modern Diogenes by-and-by to hunt for the man who doesn't eat H-O. P The rich eat it because it's tempting. The poor

because it's cheap. The well because it keeps one strong. The sick because it builds up the weak. Wise and unwise, little and big, short and tall, stout and slimyes, everybody cats H-O (Hornby's

Oats). It is nature's own food. It is the food for you. Your grocer has it. THE CLOVER MILLS.

It is just possible that the author of the fol lowing, taken from the Richmond Disputch, is a modern Esop: "The longest suit of har is the world is perhaps that which grows on the head of Muss Asenath Philpot, of Gaines ville, Tex., here trailing on the ground when she stands, nearly four feet, and measuring in all ten feet seven inches. Miss Philpot is a slight, delicate woman, approaching middle age, and regards her magnificent treases as rather a nulsance. complaining that their weight actually drains her strongth. The present growth is of the rate seven years, as in 1884 her head was shaved during a spell of brain fever. It is shaved during a spell of brain fever. It is pecessary for her health to cut out large quan titles of hair every few mouths, and this she has a good sale for from some large w g manu factory in the East, which pays her well for it, as its fineness and sliky gloss is exceptional tint. Miss Philpot says she has been several times approached by enterprising pr prietors of dime museums, who have made offers to travel with them as a freak, and has also been requested to act as agent for sundry hair tonics. She claims that her family has for generations been noted for the beauty and length of their birsute ornaments, her grandfather naving a cut his hair every day or two. Her mother's
